

Giandri Aditio

FULL STACK WEB DEVELOPER

0822-7819-8855 · giandriaditio46@gmail.com · giandri.my.id · [Linkedin](#) · [Github](#)

As a Junior Full-Stack Developer with 1 year of experience in web application development, I have been working with a modern stack such as React.js and Next.js for the front end, alongside Node.js and PostgreSQL for the back end. I have been utilizing Git Version Control and RESTful API, while continuously applying clean code standards, collaborating within teams, and adapting quickly to evolving development stacks. Additionally, I have been maintaining a personal portfolio website that showcases full range of projects to demonstrate my capabilities in both client-side and server-side development.

AREAS OF EXPERTISE

- **Languages & Core Tech:** Javascript, Typescript, PHP, Go (Golang), Python.
- **Full-stack Development :** Next.js, Node.js, React, PostgreSQL, Cloudflare R2.
- **Front-end :** React, Tailwind CSS, Shadcn/UI.
- **Back-end :** Laravel, Node.js, PostgreSQL, Prisma.
- **Cloud & Storage :** Cloudflare R2, Vercel Blob.
- **UI/UX Design :** Figma, Google Stitch.

KEY ACHIEVEMENTS

- **Operational Efficiency & Automation (BWS Babel) :** Boosted internship monitoring efficiency and productivity by **80%** by developing a centralized attendance application and HR dashboard using Next.js and PostgreSQL.
- **Technical Leadership (PT. Yunta Mandiri / MSIB) :** Served as Team Lead Front-End Developer for a web-based futsal venue booking capstone project, successfully guiding the team through full-stack development using Laravel and MySQL.

EXPERIENCE

BWS Bangka Belitung (Internship)

Nov 2025 – May 2026

IT Specialist

- Have been building and optimizing a web-based internship attendance app and public service portal using Next.js and PostgreSQL.
- Optimized the HR dashboard to streamline mentor tracking and boost operational productivity by up to 80%.
- Designed and implemented Mesh Wi-Fi network infrastructure to expand office connectivity coverage up to 95%.

PT. Mutiara Lab Mandiri (Internship)

Nov 2025 – May 2026

Web Developer

- Have been designing and constructing the official company profile website utilizing Next.js and the Shadcn/UI component library.
- Applied the Greedy Algorithm for optimal route mapping to increase client visits to the lab location by 60%.

PT. YUNTA MANDIRI (MSIB batch 6)

Feb 2024 – Jun 2024

Fullstack Web Development

- Have been acquiring and mastering core full-stack web development skills using HTML, CSS, JavaScript, PHP, and the Laravel framework.
- Utilized Git for version control workflows and Vercel for continuous application deployment.
- Lead the front-end development team for a futsal court booking capstone project built with Laravel and MySQL.

PROJECT

Portal Pelayanan Publik – BWS Babel

Jan 2026 – May 2026

- Have been building a full-stack public service portal to digitize permit applications and administrative workflows for BWS Babel using Next.js.
- Developed an interactive admin Kanban board and a multi-step permit application flow featuring real-time tracking, file uploads, and automated email notifications via Resend.

TechStack : Next.js, Prisma, PostgreSQL, Tailwind CSS v4, shadcn/ui, UploadThing

Digital Attendance System – BWS Babel

Dec 2025 – May 2026

- Have been building a mobile-first intern attendance management system utilizing Next.js and PostgreSQL to digitize check-ins and HR monitoring.
- Developed real-time GPS geolocation check-in/out with a configurable 100m geofence radius, interactive Leaflet map verification, and automated Web Push reminders via cron jobs.

TechStack : Next.js, Prisma, PostgreSQL, NextAuth, Tailwind CSS v4, Leaflet.

Loggs Maps

Mar 2026 – Present

- Have been building an interactive location discovery web application using Next.js and PostgreSQL to map and explore local coffee shops and venues.
- Integrated Leaflet map controls, marker clustering, user geolocation, and OSRM routing services to enable location-based exploration.

TechStack : Next.js, Prisma, PostgreSQL, Leaflet, Tailwind CSS, Supabase, OSRM.

EDUCATION

Institute of Science and Business Atma Luhur

Nov 2021 – Nov 2025

Major : Informatics Engineering

GPA : 3.84/4.00

LANGUAGES

Indonesian : Fluent

English : Intermediate
